### EXECUTIVE SUMMARY

AxusCoin is focused around an apropos reflection of Albert Schweitzer, “It is a man’s sympathy with all creatures that truly makes him a human. Until he extends his circle of compassion to all living things man himself will not find peace.”

This crypto community is supported by Physicians from across the globe as well as Professional Athletes that provide the highest quality ingredients in the world with state-of-the art development in Healthcare products.

This is why AxusCoin is focused on a decentralized sustainable currency which redistributes wealth to those in need. A portion of the transaction will be sent to a charity in the beginning of each month, as well as a Perpetual Reward program back to the holders with each transaction. Transactions are locked in liquidity resulting in less circulating AxusCoin increasing the price and value. As well, discounts on all Healthcare products are exclusive to members holding AxusCoin.

Time is the most precious commodity which is a nonrenewable resource.

Your time will be well spent enriching yourself as well as others in the gift of financial security as well as health which are the two most important pillars of existence.

Quick facts:

- 10% transaction fee
- 5% fee to be distributed to token holders
- 5% fee to charity (directly to the charity, we don’t own the wallet)

The events of the year demonstrated how the financial system is built on imbalance. As the need for asset distribution grew more urgent, global wealth became more concentrated.

Through cryptography and blockchain technology, individuals are now able to decentralize their financial power and have more control over the distribution of accumulated wealth.

The idea was born from the idea that the money people invest in DeFi is money they can afford to risk. This is also money they can afford to donate to causes that interest them. AXUS is aimed at people that want to improve systems that they have so far been locked out of. People that want to establish a standard where financial services have inherent redistribution of equity built in via a more egalitarian system.

A decentralized and community-owned currency, AxusCoin\ tokens are creating a fairer, more evenly distributed system that anyone can be a part of.

All AXUS transactions are subject to a **10%** transaction fee that is distributed back to the community and charitable causes.

Of this 10% collected, 5% will be redistributed to the community of AxusCoin holders and 5% will be sent directly to a charitable cause, decided by the community.

All donations and rewards are programmed to be inherently secure, automated, trustless, and immutable via the locked design of the contract.

We're providing back "AXUSability" against traditional financial models and building a community which is more accountable with a decentralized community owned blockchain. AxusCoin gives people the opportunity to participate in a unique currency and marketplace, earning rewards, and distribute wealth to causes they support. The community decides the direction and future of AXUS.

## Core Values

### Charity

We can make a real impact for the greater good, not just ourselves. By donating to charity, we remind ourselves of our duty to make this world a better place for everyone.

### Community

Founded by the community and for the community, we take pride in our collective mission. We support each other and other communities, and we have fun doing it.

### Clarity

Trust is in transparency. Information will be accessible on social media and the blockchain ledger for each other and the community. We are organized, cohesive, and all push in the same direction.

### Sustainability

The future is unforeseen, however the future is not a matter of chance, it's a matter of choice, and we're ready for it. We make every decision with consideration for its ripple effects, and we are committed to a long-term vision.
